
Backing Bitcoin

Tuesday 2 December 2014

Given recent press coverage of Bitcoin I thought it would be helpful to post my comments given to the BI yesterday.

"Whilst Jersey Finance cannot comment on specific commercial cases, we remain fully supportive of the development of an appropriately regulated cryptocurrency sector in Jersey. The digital space is a relatively new focus for the investment arena, but the launch in Jersey of the world's first ever Bitcoin fund reflects our position as both a leading hedge fund jurisdiction and a pioneering centre for the rapidly evolving world of fintech."

As a jurisdiction we are fully supportive of crypto currency development in a well regulated environment and proud to have hosted the launch of the world's first regulated Bitcoin fund.
